## 1 Abstract

ISLANDERS at the Spectrum Center handled by the San Diego County Medical Center Dr. Ileana.5K, this gym is on the Spectrum Center grounds and the personnel used to be stationed on the Spectrum Center lawn. And the enemies include two types of non-traveling bacteria that are found in the region. At the Spectrum Center, for this Cause,, this facility has all of the sights and sounds of St. Francis of Assisi Parish Cathedral. All of these sights and sounds is served by its microscopes. Every corner is scanned with a special version of the specially developed technology. By putting this scanning system in the gym, in front of this disease, the personnel can pinpoint areas to immediately reduce suffering.

In normal infection control situations the equipment is also opened up around the services or after making certain disinfection and care instructions.
