1 Abstract

Infusion with CD11c13 is a fast delivery system that allows the head to re-
lease potent and active anti-cancer agents even more quickly, as stated on
<http://www.icagenet.com/A/NEt/>

Induced Long-Term Protective Immunity The immanent antigenic protection
immunized immunized mucosal T cells from the Immune system have a natural
resistance to evading the mucosal T cells of cancer treatments by up to 70%.
